

Characteristics

TWIX 22

Function	Rendering and cutting
Motor Power (kW/hp)	2 x 22
Wire Speed (m/s)*	20-45
Down Speed/Up Speed (mm/min)*	0 mm/min a 600 mm/min
Length Wire Diamond (mm)	20800
Minimum/Maximum cutting Thickness (mm)	300/3300
It includes rail (m)	12
Wheel Diameter (mm)	2300
Weight (kg)	20.000 without cabin
Block Maximum Dimensions (LxWxH) (mm)	4000x3300x2100
Dimensions (LxWxH) (mm)	9700x10500x5400

* The data quoted may change depending on the operational conditions

ADVANTAGES

- Allows 2 cuts at the same time.
- Allows to equip more than a block and cut them simultaneously (automated process).
- Controlled by CNC.
- Cutting diamond wire adjustable in two sections to allow the block to cut different sizes in a single step.
- Shift on rails.
- Remote control by touch screen (easy and intuitive).
- Management and data storage: cutting time, length and height of cut (area), control of productivity and longevity of diamond wire.
- Excelent cut finishing.
